

eCentral Canada

eCentral lets you spend more time with patients and perform other office responsibilities by automating time-consuming tasks. Now you can remind patients of appointments, manage your website, collect satisfaction surveys and much more—all from one central location.

Previously unavailable to the Canadian marketplace, eCentral is the preferred and fully integrated patient communication solution for Dentrrix customers. It delivers the ultimate in practice automation and efficiency that not only boosts front office productivity but improves your bottom line.

Communication Manager

- Automated email appointment and recall reminders
- Automated text message appointment reminders
- Automated appointment and recall postcard reminders
- Automated confirmation posting from email and SMS reminders
- Automated satisfaction survey and patient referral process

Website Manager

- Integrated website with hosting
- Simple editing tools for web design and management
- Online patient and front office appointment scheduling
- Online patient forms
- In-office patient kiosk software

Benefits

- Reduce missed appointments with automated continuing care reminders
- Grow practice with automated referral process from satisfied customers
- Give patients the ability to request appointments online at anytime
- Reduce manual entry and check-in process with electronic patient forms
- Get the right functionality on the right website

How to Purchase eCentral Canada

eCentral Canada requires Dentrix G6 practice management software. If you have a current Dentrix Customer Service Plan, go to www.Dentrix.com/G6 and request your update to Dentrix G6.

If your office is not on a current customer service plan, re-enroll now by calling
1.800.561.2983

To purchase eCentral Canada ala carte or in a customer service plan, please call
